Re: Additional Information Requested at October 26, 2004 Open Meeting
Recommended Opinion and Order – Docket No. W-01445A-04-0453
CC&N Extension – Coolidge, Arizona

Dear Judge Pope:

During the October 26, 2004 Open Meeting, Commissioners Gleason and Mundell requested additional information about certain portions of the certificated area requested by Arizona Water Company (the "Company") in the above-referenced Application for an extension of the Company's Coolidge Certificate of Convenience and Necessity ("CC&N"). Specifically, the Commissioners asked about the provision of sewer service to portions of the requested CC&N extension. The purpose of this letter is to furnish information to you as part of the above-referenced docketed application in response to the Commissioners' questions.

Although the Company does not provide sewer service to any portion of its Coolidge CC&N and water service is the subject of its application, the Company is aware that the City of Coolidge plans to provide sewer service to the master-planned community known as Cole Farms. This project is located in Sections 5, 6 and 7 of Township 6 South Range 8 East. I have confirmed this information with the City of Coolidge Director of Planning and Zoning. The Cole Farms project is currently the subject of an annexation petition with the City of Coolidge.

Concerning Sections 9 and 10 of Township 5 South, Range 8 East, the Company's existing customers located in this area are non-residential and do not need sewer service. Future developments within these areas are expected to receive sewer service from the City of Coolidge due to their close proximity to its wastewater treatment plant. The remaining portions of the Company's requested CC&N extension are also expected to receive sewer service from the City of Coolidge as these areas develop.
